

Saguaro National Park - Saguaro Census Plot #41A
March 27, 2010 – Park Staff and Volunteers

Plot 41A is a historic plot that was established and first surveyed in 1941. In this figure, green columns represent the number of saguaros counted in 1941, orange represent 1975, purple represent 2002 and blue represent 2010. The x axis breaks down the saguaros into size classes. The total number of saguaros counted is on the far right side of the chart. There has been a decrease in the total number of saguaros on the plot since the first Saguaro Census in 1941.
